The Sustainable Urban Mobility Planning Cycle

1. Determine potential for success
2. Define development process and scope of plan
3. Analyse mobility situation and develop scenarios
4. Develop common vision
5. Set priorities and measurable targets
6. Develop effective packages of measures
7. Agree on responsibilities and allocate funding
8. Build monitoring and assessment into the plan
9. Adopt sustainable urban mobility plan
10. Ensure proper management and communication
11. Learn the lessons

Milestone: Planning adopted
Milestone: Measures identified
Milestone: Analysis concluded
Milestone: Impact assessed
