The Vicious Cycle of Predict and Provide

1. Predict and provide
   - Capacity limit
   - Prediction study
   - Insufficient road capacity
   - Expanded provision of road infrastructure
   - Encouragement to use private motorised transport
   - Parking management, congestion charge
   - Public transport priority, taxation policies
   - Declining ridership of public transport and degradation of active transport infrastructures
   - Increase of vehicular traffic
   - Congested road network
