TUMI Conference
Transforming Transport Infrastructure

17th May

Kongresshalle am Zoo Leipzig
Pfaffendorfer Straße 31, 04105 Leipzig
Room “Bachsaal”
(Conference Level 0, North Wing)
Welcome to the TUMI2022 Conference!

This year is all about "Transforming Transport Infrastructure".

Sustainable infrastructure is the backbone of climate-friendly urban mobility. This year, we will build on Germany’s G7 presidency and engagement on the topic of sustainable infrastructure and put a spotlight on the importance of achieving a sustainable transport infrastructure transformation.

Once again, we aim to spark conversations and discuss with you:

- How can the transformation towards sustainable transport infrastructure succeed and ensure reaching the international climate goals?
- How do we warrant this transformation is gender-sensitive and inclusive?
- How will we close the infrastructure investment gap in the transport sector?
